Dear Parents (and Students),

Wow! Where did the summer go? Welcome to the 2016-2017 school year. I look forward to an exciting and rewarding year as your child's science teacher. My 6th graders will discover and explore many interesting facts about the many powerful processes on our planet, in our solar system and throughout our universe. Our school year will begin by establishing classroom policies and practicing classroom procedures that create a learning environment that ensures your child's success in my classroom. The first order of business is to establish the expectations that I have for myself and my students:

TEACHER Responsibilities:

1. To treat you with respect and care as an individual
2. To provide you an orderly classroom environment
3. To provide the necessary discipline
4. To provide the appropriate motivation
5. To teach you the required content

STUDENT Responsibilities:

1. To treat me with respect and care as an individual
2. To attend classes regularly
3. To be cooperative (not disruptive)
4. To study and work hard
5. To learn and understand the required content

All classroom policies, procedures and routines help reinforce student responsibility for his or her learning and may be viewed on my classroom website:

<http://mrsmorin.weebly.com> on the Home Page. Please review this document carefully, discuss it with your son or daughter, then **complete and return the form at end of this document** (given to students in class). I have gone over these policies and procedures with students in each of my classes during our first class meeting.

With your guidance and support, your child will have an enjoyable and successful year in this classroom. Many thanks in advance.

Sincerely yours,

Mrs. L. G. Morin

Mrs. Morin's Science Class Agreement

I have read and understood the classroom rules and procedures on <http://mrsmorin.weebly.com> Home page and the 6th Grade Science lesson page and I agree to adhere to them.
